very nice very good good good. Company refuses to release new verisons of this game.. Great quality plane. A lot of fun to fly. Nicely detailed cockpit.. Two thumbs up from me!

Great game already, fantastic feel to the controls for viewing the play area.

A few fun singleplayer scenarios that are quite hard and then there is a sandbox practice mode against AI and also matchmaking which I played with a friend.

Really looking forward to seeing where this goes. Definitely one of my favorite VR games I have found so far. Worth every penny! I would recommend buying it now if you are thinking about it.

There is a discord for finding people to matchmake with.. Great Game To Play, Great Game If you Are Willing To Learn, Only Sad Thing is, Your Input is not welcome.... The Devs are Really Nice But Some Individuals in the Community, Killed the fun of learning and helping... this is why i put this game in my occasional play game instead of focusing my time and effort on it, I Recommend this Game To Anyone who likes Vr Shooters, But as of today the game is quite playable but i would restrain from using the Dedicated servers just yet.... they are not ready.... One Good thing is LifeRp Is soon to be unveiled might wanna stick around for that if you are a DarkRp Fan From The Famous Gmod!!!
Anyways Have Fun Playing!

Crysis is a special game for me. This is the first game I ever bought and I still keep the DVD disk. It was the reason I met my best friend from childhood who sadly passed away 2 years ago. The game was known for having great graphics and "But can it run Crysis" meme but I always thought it is underrated.. No interaction, scary models.. First of all, I really enjoyed this game, and I AM marking it as recommended. The graphics are fantastic, the story is incredibly intriguing, and the puzzles are enjoyable and get quite challenging. However, the ending comes abruptly and out of no where, and wraps up nothing, just leaves more mysteries and questions. The credits started rolling and I was so confused, because where was the rest of the game??? I really want to keep playing and finish the story, so hopefully they do finish it... Mindless fun. Would be much better if there's more levels though. Just as challenging as i would have expected also is a great time waster and really challenges your awareness to platforms moving and enemies trying to attack you. 9/10 glad i bought it :)
